GE23627 DESIGN THINKING AND INNOVATION

AY 2026-2027

S.C.O.P.E.S – Team Scope Sheet

Scoping of design challenge When you want to work on real project using Design Thinking, begin the process with a specific and purposeful situation or problem to solve called Design Challenge. The Design Challenge should be doable, clear, actionable and hopefully inspiring. Your problem statement should be an outcome and not a solution.
You can use SCOPES as a tool to brainstorm and frame your problem.

TEAM NAME	**Duty Track**
TEAM MEMBERS	**1. Sharjin Jino S.A(241701052)** **2. Naveen.S (241701038)** **3. Ajay Ram Iyyappan (241701004)**
DOMAIN NAME	**Document Management System**
DATE	**07.08.2026**
FACULTY INCHARGE	

S – Situation / Problem • What is the real situation you want to address? • Where does this problem occur? • Describe without mentioning any solution.	1. Students applying for On-Duty (OD) leave for college events face a manual process involving paperwork, signatures, and document submission. 2. In colleges and universities during the OD approval process 3. Students experience approval delays and difficulty tracking their requests, while faculty spend extra time verifying documents and maintaining records.

C – Constraints What are the CONSTRAINTS when trying to address the situation or problem?	1. Manual verification of event participation and certificates. 2. Approval depends on the availability of faculty and HOD. 3. Delays in collecting signatures and processing requests. 4. Risk of missing or incorrect documents. 5. Different departments may follow different OD approval procedures. 6. Maintaining accurate and secure student records. 7. Limited time for faculty to review multiple OD requests during busy periods.
O – Objectives & Outcomes What are the OBJECTIVES and intended OUTCOME of this design challenge?	**Objectives** 1. To simplify the On-Duty (OD) request process for students. 2. To reduce delays in the approval process. 3. To improve transparency in tracking OD request status. 4. To reduce paperwork and manual record maintenance. 5. To make document submission and verification more efficient **Outcomes** 1. Faster and more efficient OD approval process. 2. Easy tracking of OD request status by students. 3. Reduced administrative workload for faculty and staff. 4. Improved accuracy in maintaining OD records. 5. Better user experience for students and faculty.
P – People Who are the PEOPLE that you are trying to help? Whose problem are you trying to address? Primary Stakeholders Secondary Stakeholders	1. The project aims to help students and college staff involved in the On-Duty (OD) request and approval process. **Primary Stakeholders** a) Students b) Faculty Members / Staff Advisors **Secondary Stakeholders**

Decision Makers	a) Department Office Staff b) Event Coordinators c) Attendance In-charge **Decision Makers** a) Head of Department (HOD) b) Principal c) College Administration
E – Estimates What are the ESTIMATED resources required for this design challenge?	**Human Resources:** • Students • Faculty Members • UI/UX Designer • Head of Department **Software:** • Figma • VS Code • Firebase/MySQL **Hardware:** • Laptop • Smartphone • Internet Connection **Time:** • Approximately **4 weeks**
S – Scope to Explore Is there ample SCOPE to explore multiple alternatives to address the problem?	There is ample scope to explore multiple alternatives for improving the On-Duty (OD) process, such as: • Online OD request submission • Digital document upload and verification

	• Multi-level approval workflow • Real-time application status tracking • QR code or event attendance verification • Automated notifications and reminders • Integration with the college attendance management system
Frame the Design Challenge	Students who participate in academic and extracurricular events often face a lengthy and manual On-Duty (OD) approval process involving paperwork, document submission, multiple approvals, and limited visibility into the application status. Faculty and administrative staff also spend considerable time verifying documents and maintaining records.
